Maddie Kirby (10 MO) and Charlie Martin (22 MO)

RCDP is a rare, terminal genetic disorder that affects brain function, mobility, growth and speech. A child 5 years of age is considered to be a long term survivor. The only research funds being raised are by RCDP families! RCDP is short for Rhizomelic Chondrodysplasia Punctata. Although these children express their love in their own way, and they are unable walk or talk, Rhizo families take one day at a time and treasure each precious moment.

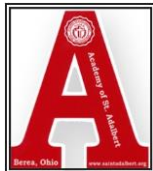

Jake (15) & Jordyn (11) are proud to be a part of Rainbows Miracle Kids

Thank you for your support...From our 4 local Ohio RhizoKids
Jake & Jordyn Cirner,
Charlie Martin, Maddie Kirby &
ALL the RhizoKids and their families!
